Woodstock Celebration featuring The Wheel

Break out your best tie-dye and join us on the back lawn after hours for a celebration in the true spirit of Woodstock. Let The Wheel take you back to a time of peace, love, and music as they jam to the tunes of the Grateful Dead, Neil Young, and more. There will be fun for the whole family including crafts and lawn games, beer tastings, and a barbecue. Bring a lawn chair or blanket. All ages welcome!

Friday, August 2
6:30-7:45 pm
From Alex Gutelius, Director

We’re always up to something new at the Library and later this month we will launch a new events calendar. You can still find it on our website, but there will be improved features we think you'll enjoy. You can now add programs to your personal online calendar, track the programs you registered for, or create your own personalized brochure, if you wish. Our staff will be at the ready to help you navigate the new calendar and answer any questions.

It's another season of celebrations as two major historical events mark 50 years—the moon landing and the Woodstock music festival. Look for special space-themed programs throughout the summer to celebrate the historic event and to celebrate this year’s summer reading theme, *A Universe of Stories*. Keep reading all summer long for a chance to win free books and great prizes. Kids, teens, and adults can all participate. Kids can pick up their summer reading calendars in the Children's Library and a volunteer will help them register; teens can track their minutes online; and adults can pick up a 50 Book Challenge booklet at the Ask Desk.

We will end the summer with our own music “festival” for the whole family. Join us after hours on our back lawn for a concert with The Wheel, beer tastings, barbecue, and crafts and games for kids. Break out the tie-dye and bring the whole family for a groovy, good time!

A LITTLE BIT OF HISTORY –
HERE’S WHAT WAS HAPPENING IN 1969

One small step for man, one giant leap for mankind...

Moon Landing, July 20, 1969
Pictured L-R: Neil Armstrong, Michael Collins, Buzz Aldrin

Fifty years ago millions of Americans gathered around their black and white TVs waiting to hear the words that would make history: “Houston...the Eagle has landed.”

Astronauts Neil Armstrong and Buzz Aldrin spent more than two hours on the moon, setting up experiments, collecting samples, and leaving behind mementos of their historic feat. Astronaut Michael Collins remained with the space shuttle's command module. Four days later, the three men aboard the Apollo 11 returned home, splashing down in the Pacific Ocean to a heroes welcome.*

Peace, Love, Music, & Traffic

In August 1969, more than 400,00 flocked to Bethel, New York, eventually shutting down the NYS Thruway. Despite the large crowd and lack of police presence, the three day Woodstock festival is said to have gone off with very few incidents of violence or unrest. Performers included Janis Joplin, the Who, Santana, and Arlo Guthrie, among others. Jimi Hendrix electrified the remaining crowd early on a Monday morning in the final performance.*

LIBRARY HOURS

Monday–Thursday  9 am–9 pm
Friday           9 am–6 pm
Saturday        9 am–5 pm
Sunday          12–5 pm

The Library will be CLOSED: Thursday, July 4 for Independence Day
