STUDENT GUIDE TO MENTAL HEALTH*

KNOW THE 10 COMMON WARNING SIGNS:

- Feeling sad or withdrawn for more than two weeks
- Seriously trying to harm or kill oneself or making plans to
- Severe, out-of-control, risk-taking behaviors
- Sudden, overwhelming fear for no reason
- Not eating, throwing up, or using laxatives to lose weight
- Seeing, hearing, or believing things that are not real
- Repeatedly using drugs or alcohol
- Drastic changes in mood, behavior, personality, or sleeping habits
- Extreme difficulty in concentrating or staying still
- Intense worries or fears that interfere with daily activities.

WORRIED?

TELL SOMEONE:

- A Family Member
- Close Friend
- Teacher or Professor
- Counselor or Coach
- Faith Leader

WHAT TO DO:

- Get help early
- Talk to your primary care doctor to rule out other conditions
- Be honest about what you are feeling
- Ask for help finding a therapist or mental health specialist
